Profile

Cybersecurity student with hands-on experience in vulnerability assessment, security monitoring, and ethical hacking. Completed cybersecurity internship training and participated in CTF competitions. Interested in penetration testing, network security, and security operations.

Education

Institute of Aeronautical Engineering, Hyderabad *Expected May 2027*
B.Tech – Computer Science Engineering (Cyber Security) GPA: 8.43/10.0

Kshatriya College of Engineering, Armoor *Aug. 2021 – Jul. 2024*
Diploma – Computer Science Engineering GPA: 9.32/10.0

Little Flower High School, Pochampad *May 2021*
Secondary School Certificate (SSC) GPA: 10.0/10.0

Technical Skills

Programming: Python, C
Web Development: HTML, CSS, JavaScript, Flask
Security Tools: Nmap, Metasploit, Burp Suite, Wireshark
Operating Systems: Linux, Kali Linux, Ubuntu, Windows
Other: SQL, Machine Learning Basics, AWS Cloud Fundamentals

CTF Experience

Breach Point CTF Season 2: Participated in a 36-hour national-level CTF covering web exploitation, cryptography, forensics, reverse engineering, and OSINT.

CyberGeek'26: Participated in the CTF organized by GeekHaven under Aparoksha at IIIT Allahabad.

Dark-CTF 2026: Participated in the CTF organized by Crack-On Community.

Internships

Codec Technologies Pvt. Ltd. *May 2025*
Cybersecurity Intern

- Gained exposure to vulnerability assessment, security monitoring, risk mitigation, and incident analysis.

National Small Industries Corporation (NSIC) *Jun. 2024*
Industrial Training

- Received training in AWS, Big Data, Python, and Data Science, including cloud services and data analysis.

Projects

PathFinder AD GitHub
Python, Flask, NetworkX, JSON, Pytest

- Analyzes Active Directory configurations to identify risky settings, excessive permissions, and potential attack paths.
- Organizes evidence-based findings and remediation recommendations to support security assessments.

Web Vulnerability Scanner GitHub
Python, Socket Programming, Requests

- Automates web security checks, including port scanning, HTTP header analysis, and security-header detection.
- Includes SQL injection testing to help identify potential web application weaknesses.

SentinelScope GitHub
Python, Flask, Pandas, SQLite, Pytest

- Analyzes logs for suspicious activity, including repeated failed logins, to support Blue Team investigations.
- Supports alert severity, investigation status tracking, evidence-based findings, and report export.

Certifications

Cisco: Junior Cybersecurity Analyst | Ethical Hacker

CyberWarFare Labs: Certified Cyber Security Analyst (C3SA)
